

# SOFEMA WILL BE PRESENT AT THE 5th EDITION OF SHIELDAFRICA

News release

**Levallois-Perret - December 12th, 2018** - This reference exhibition of the continent is the meeting hub of all those who work toward the development of a safer Africa.

Delegations are welcome to visit our stand B-278 of the France Pavilion in the indoor area, on which we exhibit the HADÈS20® armament system. This system has been developed under Sofema's supervision ; it consists of a 20mm M693 (CN MIT 20 F2) gun mounted on a tailor-made carriage.

The system can be integrated on all types of platforms (pick-up, truck, naval vessel). HADÈS20® is meant to carry out the following tasks:

- antipersonnel fire and anti-light armored vehicle fire, up to 2000m
- protection of exposed sites against ground-ground or ground-air short range fire
